

Echoflex Solutions Release Note

Horticultural Luminaire Controller

ELED1-RHL

Product Line:	Horticultural Luminaire Controller ELED1-RHL
Description:	Version 3.4.0 Firmware
Effective Date:	2024-01-26

About This Release

This release introduces a new model in the ELED1 family of controllers. The Horticultural Luminaire Controller, model ELED1-RHL, (120-277 VAC) provides LED fixture control for horticultural applications. The ELED1-RHL is ideally suited to operate with RAYN Growing Systems (see rayngrowingsystems.com).

Compatibility

This release is compatible with the following Echoflex Solutions software and hardware:

- Garibaldi Pro software (device database update only)
- RAYN Photo Sensor (RPS)
- Wireless TimeClock (WTC)
- Multi-Button Interface Switch Station (MBI)
- Multi-Scene Station (MSS)
- Paddle Switches (PTM, ETRH, and ETRS)
- Wall Switch Sensor (OWS)

Availability

The Horticultural Luminaire Controller, model ELED1-RHL, ships from the factory with firmware v3.4.0. A firmware update before use is not required.

Resources

Please keep this release note with your installation guide for descriptions of the newest features, changes, and bug fixes. Additional reference material is available for download from the RAYN website at rayngrowingsystems.com.
